FAVORITE MITTENS
By Robin Hansen

Robin Hansen can justifiably claim to be the person who started the groundswell of interest in roots knitting patterns for mittens. When Fox & Geese & Fences: A Collection of Traditional Maine Mittens was published a generation ago, it was an instant success, and nary a knitter above the age of thirty has not heard of it. It was followed by a second, equally inspiring collection: Flying Geese & Partridge Feet. More Mittens from Up North & Down East. Favorite Mittens is a compilation of some of the most popular traditional designs from Robin’s groundbreaking first two books, presenting these tried-and-true patterns in a new format, with step-by-step directions revised and updated for ease of knitting, thanks to the helpful feedback Robin has gotten from the knitters who flock to her workshops all around the country.

ULTIMATE MITTENS: 28 CLASSIC PATTERNS TO KEEP YOU WARM
By Robin Hansen

Filled with a wide array of classic knitting patterns, this book is, in essence, the ultimate mitten book. The patterns are organized from simple to difficult and their origins range from traditional Scandinavian and Canadian Maritime patterns to more contemporary sewn and windblock patterns from right here in Maine. Rounding out the patterns is useful information on caring for and repairing wools, tips for adding details such as buttons, straps, or leather palms to mittens; and a list of yarn suppliers.

GOOD FENCES
A Pictorial History of New England’s Stone Walls
By William Hubbell

For this stunning new volume, photographer William Hubbell has turned his lens toward New England’s ubiquitous stone walls. Beginning with the basic geology of the region and why New England has so many darned rocks, he presents a chronological overview of the varying styles and methods of wall building, and includes conversations with six contemporary wall builders. The result is a surprising and refreshing look at stone walls and at the history of New England.

CHOWDERS, SOUPS, AND STEWS
By Marjorie Standish

The best recipes from Maine’s acclaimed food writer, these are mouthwatering renditions of classics like clam chowder, lobster stew as well as broccoli chowder and crabmeat stew. Simple and simply delicious!

IN A CLASS ALL THEIR OWN
Unique and Historic Boats of New England
By Tom Verde

Each boat has a story to tell and this book features nearly two dozen profiles of classic/unique boats, drawn from articles written for the Westerly Sun newspaper during the summers of 2014 and 2015. Explore not only the histories of the individual vessels, but of their classes and designers, as well as their relationships to the environs in which they sailed, raced, cruised and, in some case, still operate as working vessels. These stories include the fabled history of the cat boat; the first fiberglass sailing yacht; a NY ferry boat repurposed as a houseboat; the oldest working fishing boat in Stonington, CT; racing rivalries in the Sound; the French love affair with American boat designs; and the Jazz Age era of luxury yachting, among others.

THE SHIPWRIGHT AND THE SCHOONER
Building a Windjammer in the New England Tradition
By (photographer) Dan Tobyne, By Harold Burnham

The Shipwright and the Schooner is an exploration into traditional New England shipbuilding, and it is a journey of discovery for both the author, who has spent his life building wooden boats, and the photographer, who had his first experiences in the boatyard. The book chronicles in words and stunning color photographs the construction, launch, and subsequent season of sailing aboard the Ardelle. The vessel is a testament to community involvement and a badge of honor in the age of mass production. It is a reminder of simpler times, when things were meticulously crafted by hand, and of a lifeway that has mostly vanished.

LIGHTHOUSES OF NEW ENGLAND
From Maine to Long Island Sound
By Ray Jones

New England Lighthouses is a fascinating guide to the most significant lighthouses in New England, including the country’s oldest lighthouse, Boston Light. Through stirring historic accounts and stunning color photographs, the stories of lighthouses and their stalwart keepers come to life in vivid detail. From West Quoddy Head Light on the easternmost point of land in the United States to the string of lights along the Connecticut shoreline on the Long Island Sound, each lighthouse has its own engrossing tale of survival against the elements.
THE GRIFTER, THE POET, AND THE RUNAWAY TRAIN
Stories from a Yankee Writer’s Notebook
By Geoffrey Douglas

For over 20 years, Geoffrey Douglas has written feature-length pieces for Yankee magazine that chronicle extraordinary stories that have taken place in New England. Some have been about public events, widely reported—a Maine town turning against itself under the weight of an influx of Somalis, a fatal fire in Worcester MA, a Vermont reporter’s defense of marriage equality. Others, have been more private, the stories of men and women surviving, facing choices, living life—a small-time jockey scratching out an existence at county-fair racetracks; the long, sad fall of a Maine lottery winner, a poet’s love affair with his town. The best of these, taken together, make for a rich and updated collection of New England portraits: mostly ordinary lives, upended by choice or chance, turned suddenly, unexpectedly remarkable.

NEW ENGLAND AT 400
From Plymouth Rock to the Present Day
By Eric D. Lehman

At the 400th anniversary of the pilgrims’ arrival (1620-2020), it’s time to look back, commemorate, and reflect on what New England has meant to its people, and to the world. New England at 400: From Plymouth Rock to Present Day describes how every generation of immigrants and natives, Puritans and patriots, has defined this land anew. It is a story of transformation, but also continuity, since “New England” embodies both a collective philosophy and a shared past.

Each chapter covers a decade of important incidents and events that defined or shaped the regional character, land, and culture.

NEW PILGRIM CONFIDENTIAL
Shocking True Stories of the Pilgrims in the Strange New World
By Susan Fair

From robbing graves, to calling their neighbors “scum,” to penning hot takes about the fantastic firewood situation in New England, the intrepid founding fathers and mothers of New England were way more complex and colorful than we’ve been led to believe. In Pilgrim Confidential, readers will encounter the Pilgrims—the small group of Puritan Separatists and their associates who banished themselves to the “vast and howling wilderness” of America—as they struggle to establish the first colony in New England. Sometimes dark, often humorous, the true tales of the founding of Plymouth are always surprising.

Crime and Punishment in Early New England
By Juliet Haines Mofford

Tales of the country’s original criminals—and how the courts punished them for their misdeeds

Scarlet Letters, wanton dalliances, Sabbathbreaking, and debt: Colonial laws were easily broken and the malefactors who broke them, swiftly punished. How did our ancestors deal with murder and mayhem? How did seventeenth- and eighteenth-century New England communities handle deviants? How have definitions of criminal behavior and its punishment changed over the centuries? What were early prisons like? What were the duties of a turn-key? Find out all this and more in *The Devil Made Me Do It.*

*THE LAST GOOD HEIST*
The Inside Story of The Biggest Single Payday in the Criminal History of the Northeast
By Wayne Worcester, Randall Richard and Tim White

On Aug. 14, 1975, eight daring thieves ransacked 148 massive safe-deposit boxes at a secret bank used by organized crime, La Cosa Nostra, and its associates in Providence, R.I. The crooks fled with duffle bags crammed full of cash, gold, silver, stamps, coins, jewels and high-end jewelry. The true value of the loot has always been kept secret, partly because it was ill-gotten to begin with, and partly because there was plenty of incentive to keep its true worth out of the limelight. It’s one thing for authorities to admit they didn’t find a trace of goods worth from $3 million to $4 million, and entirely another when what was at stake was more accurately valued at about $30 million, the equivalent of $120 million today. It was the biggest single payday in the criminal history of the Northeast. Nobody came close, not the infamous James “Whitey” Bulger, not John “The Dapper Don” Gotti, not even the Brinks or Wells Fargo robbers. The heist was bold enough and big enough to rock the underworld to its core, and it left La Cosa Nostra in the region awash in turmoil that still reverberates more than forty years later. Last Good Heist is the inside story of the robbery and its aftermath.

*NEW PRETTY EVIL NEW ENGLAND*
True stories of Violent Vixens and Murderous Matriarchs
By Sue Coletta

For four centuries, New England has been a cradle of crime and murder—from the Salem witch trials to the modern-day mafia. New England is also the birthplace of several infamous serial killers, like H.H. Holmes and The Boston Strangler. Maybe it’s those long winters?

Readers will be glued to their seats as they follow the killers through broken childhoods, first brushes with death, and overwhelming urges that propelled these women to take the lives of a combined total of more than one-hundred innocent victims. The murders, investigations, trials, and ultimate verdicts will stun and surprise readers as they live vicariously through the killers and the dogged investigators who caught them.

Based on stories told by first-hand witnesses, these stories of ghostly goings-on will keep you on the edge of your seat—and possibly up all night! TOM BRADY
A Celebration of Greatness on the Gridiron
By David Fischer
In modern professional sports history, only a handful of elite players have spent their entire career with one franchise. The fact that Tom Brady has spent nearly two decades with one team, together with his on-field excellence, has formed an unbreakable bond with fans of the New England Patriots.
Selected as the 199th overall pick in the sixth round of the 2000 NFL Draft, Brady is arguably the greatest quarterback in pro football history. He has six Super Bowl rings, four Super Bowl MVP awards, and is a three-time NFL MVP. Now playing in his twentieth NFL season, he is one of the longest-tenured players in league history.

HIKING THROUGH HISTORY
NEW ENGLAND
Exploring the Region’s Past by Trail
By Johnny Molloy

Imagine hiking along a wooded trail in New England and stumbling upon the stone foundation of a crumbled building, the wooden slats of the walls caved in, the ironwork of the hinges still dangling on the burned out door. This discovery piques your interest—what is this? What’s its significance? How can you find out? Enter Hiking through History New England: Exploring the Region’s Past by Trail. The hiking guidebook, which profiles forty hikes (all trails, of varying degrees of difficulty), goes beyond simply stating miles and directions and GPS coordinates for each hike to include rich descriptions of the history underfoot.

The Book of Sailing Knots
How To Tie And Correctly Use Over 50 Essential Knots
Revised Edition
By Peter Owen

In recent years, sailing has undergone some revolutionary changes: Satellites and autopilots are now used for navigation. Artificial-fiber and wire ropes have nearly replaced natural-fiber ropes. But when it comes to decorative knotting, natural fiber is still the favored choice. This book is tops when it comes to learning how to master tying the most common sailing knots. With fully illustrated and step-by-step instructions, the author explains how to correctly tie and use more than fifty knots—including stopper knots, bends, loops, and hitches—and in which situations each one is most useful.

The Coast of Summer
Sailing New England Waters from Shelter Island to Cape Cod
By Anthony Bailey

The seductive storytelling of Anthony Bailey is as gratifying as a full-sail breeze in this enchanting tale of a season afloat along the New England coast. Poking into deep harbors and shallow ponds, anchoring off fashionable resorts and remote coves, Bailey and his wife Margot leisurely sail between Long Island and the tip of Cape Cod in their small sloop, Lochinvar. Interspersing his narrative with local history, geography, and biography, Bailey evokes curious legends and brings to life those rare, intriguing characters who are drawn to coastal life. And when, on occasion, this drowsy, idyllic cruise becomes a sudden, sober, battle with the perils of the sea, Bailey offers modestly but enticingly the fruits of much hard-won and not always heroic yachting experience.

THERE’S SOMETHING ABOUT A ROCK
By Linda Kranz
This homage to rock collecting, assembled by “rock artist” Linda Kranz, celebrates rocks in all their variety, shapes, and colors. Some even resemble pieces of modern art. Others offer a glimpse into the natural beauty that surrounds us. There are rocks that are rough to the touch, and others that are as smooth as glass. There are rocks inside rocks.

You can even find rocks that are shaped like a heart. There are even rocks that cling to a magnet! This book will explain how to start a rock collection, and what you might do with them, such as identifying what kind of rocks they are or even painting on them or creating scenes with their shapes. The book also advises you where NOT to collect rocks, such as certain parks and natural areas. Regardless, this book will inspire the rock hound in all of us.

THE HISTORY OF PLAINVILLE CONNECTICUT, 1640-1918

By Henry Allen Castle

This is a comprehensive history of the beginnings, trials, and flourishing of Plainville Connecticut. As Gertrude Castle Nystrom wrote in the preface to her father’s book, “This history of the beginnings of Plainville, Connecticut, covering the period from the time it was a part of Farmington up to the year 1918, was written by [Henry Castle] as an act of love for history... To obtain some of his material, he walked to Farmington and back four miles each way, every day one summer in order to study town records.” Castle’s dedication to local history has preserved a peaceful town in word and photograph.

America won the Revolutionary War against all odds. They were outnumbered and outmaneuvered for the majority of the war, but a few strategic wins turned the tables. One such strategic encounter occurred after the war was won—in Danbury, the British planned a massive raid on Danbury’s magazine of stores in April 1777. Robert McDevitt outlines the leading causes and comprehensive history of this tumultuous time from a British viewpoint.

The British RAID on Essex
The Forgotten Battle of the War of 1812
By Jerry Roberts
This is the dynamic account of one of the most destructive maritime actions to take place in Connecticut history: the 1814 British attack on the privateers of Pettipaug, known today as the British Raid on Essex.

RIVERS OF AMERICA: THE CONNECTICUT
By Walter Hard, Introduction by Erik Hesselberg
The Rivers of America Series is a landmark series of books on American rivers, for the most part written by literary figures rather than historians. The Connecticut is a reprint of the 1947 edition with a new introduction bringing the fabled river’s history up to date. The book describes the exploration of the river by Adriaen Block in 1614, the Dutch settlers who followed, and the restless English souls from Plymouth Colony.

MURDER IN CONNECTICUT
The Shocking Crime That Destroyed A Family And United A Community
By Michael Benson
A moving account of the shocking summer 2007 Connecticut crime that is still making national headlines. Murder in Connecticut examines what happened to Dr. William Petit, his wife Jennifer Hawke-Petit, and their two daughters, Hayley and Michaela, in the early morning hours of July 23, 2007 in the quiet town of Cheshire—and how their community rallied bravely around the sole survivor of this vicious home invasion.
Despite being the third smallest state, Connecticut can claim more than its share of remarkable women who have made lasting social, political, and cultural contributions to both their own state and to their nation. From Prudence Crandall, Connecticut’s official State Heroine, who braved imprisonment for opening a school for black girls, to Harriet Beecher Stowe, whose classic *Uncle Tom’s Cabin* urged the nation on a path towards abolition of slavery, to Margaret Fogarty Rudkin, who changed the nation’s eating habits with her healthful bread made at Pepperidge Farm, Connecticut women have broken the rules to make their own and in the process improved their world, and ultimately ours, forever.

WINDJAMMER WATCHING ON THE COAST OF MAINE  
By Virginia Thorndike

A revision of what has become a well-known guide, Windjammer Watching on the Coast of Maine provides a systematic review of the windjammer fleet in midcoast Maine, as well as some from away that sail here. Virginia Thorndike tells us how to identify all the individual vessels and gives the histories and vital statistics for each. This is an essential guide for anyone interested in taking a windjammer cruise, for boaters cruising the coast of Maine who want to identify windjammers they see, and for armchair sailors who enjoy reading about these traditional sailing vessels, most of which began their careers as cargo carriers, pilot boats, fishermen, and private yachts.

MORE THAN MEETS THE EYE  
Exploring Nature and Loss on the Coast of Maine  
By Margie Patlak

For award-winning science writer Margie Patlak, exploring the unique nature of the Maine coast opens a door to deeper ties and insights. Watching a striped monarch caterpillar transform into a chartreuse pendant dabbed with gold, she realizes the limits of life and what passes between generations. She explores the violent geologic collisions that thrust up and fractured Maine’s mountains; digs into the latest scientific thinking on how animals navigate; reflects on the dizzy dance of plankton under the microscope and the dogfish heart that continued to beat while held in the palm of her hand. She looks at moose, fox, fishers, and the tides as well, and shares a chapter about cleaning up the Maine coast by kayak. These facets of the natural world speak a hidden language that is translated by scientific knowledge and reflection. Nature begins to speak about the nature of life.

PUBLIC ENEMY NUMBER ONE
The True Story of the Brady Gang
By Trudy Irene Scee
Al Brady was an armed robber and murderer in the 1930s and became the FBI’s Public Enemy #1. The crime spree of Brady and his gang brought them from the south and midwest to Maine. A hardware store owner in Bangor became suspicious when Brady requested a large supply of ammunition and paid with an equally large amount of cash, and notified police. The FBI was waiting in ambush for them when they arrived to pick up the ammo. The rest is history, as on October 12, 1937, Brady and an accomplice were killed in a hail of bullets in broad daylight in downtown Bangor. This spectacular public gun-battle has become an integral part of Maine lore. Now, historian Trudy Irene Scee tells the story, including Brady’s growing up in Indiana, his criminal exploits, and what brought he and his cohorts to Maine.

THE GREAT MARS HILL BANK ROBBERY
By Ronald Chase
On November 12, 1971, Bernard Patterson, a much decorated Vietnam War hero turned real-life version of Don Quixote, Butch Cassidy, and Robin Hood all rolled into one, robbed the Northern National Bank in Mars Hill, Maine. He escaped with $110,000; at the time, the largest bank robbery in the history of the state. This was the beginning of a comic, outrageous, implausible journey that took him across the United States, then to Europe and North Africa before finally surrendering to authorities in Scotland Yard after he had spent most of the money.

THE DISAPPEARANCE OF AMY CAVE
A True Account of Murder and Justice in Maine
By Pat Flagg
When Amy Cave was reported missing and later discovered murdered, it was difficult for the police and reporters to keep their emotional distance. The controversial sexuality of the killer and the tragic nature of the story made that impossible.

MAINE’S REMARKABLE WOMEN
Daughters, Wives, Sisters, and Mothers Who Shaped History

ROBIN EMERY
Maine’s First Lady of Road Racing
By Ed Rice
Robin Emery of Ellsworth, Maine is a pioneer in the sport of road racing, or distance running. She fell in love with the sport of running in 1967 and, fifty years later, she is still at it. When she started, women weren’t allowed to race with men and there were no sports teams for girls in schools, but that was no deterrent. Robin persisted, trying a range of sports as a child from golf to football before establishing herself in the field of running. Along the way she has encouraged and inspired countless girls and women— including Maine’s Olympic gold medal winning Joan Benoit Samuelson.

MAINE’S GREATEST ATHLETES
By Nancy Griffin
Mainers are known to be fiercely loyal, to their culture, history, and heritage, and to their favorite hometown sports heroes. Many of these heroes have gone on to have legendary careers on the national stage from Louis Sockalexis, the first Native American to play professional baseball, to Joan Benoit Samuelson, the first woman to win gold in an Olympic marathon. There’s Seth Wescott, Olympic gold medal snowboarder, Joey Gamache, junior lightweight world champion boxer, and “Fly Rod” Crosby, Maine’s first Registered Maine Guide. For every household name, there are countless local legends that are just as revered. Journalist Nancy Griffin presents a surprising range of athletes in this collection of short profiles and achievements. You’ll find superstars in everything from baseball and hockey to golf, shooting, and harness racing.

STATESMAN
George Mitchell and the Art of the Possible
By Douglas Rooks
Over the course of his long and storied career, George Mitchell proved to be much more than just that senator from Maine. He is one of the last from a sort of “golden age” of American politics, when opposing parties worked together to accomplish things for the good of the nation, rather than the good of the party. Before becoming senator, Mitchell was an attorney and then a judge in Maine. Among his many public efforts, he is perhaps known for his environmental work and his work on peace and justice, especially his brokering of the peace in Ireland and his efforts in the Middle East.
Now, seasoned journalist Douglas Rooks gives us a thoughtful and highly readable look at the man and his public work. While the book traces his personal life, it is primarily a political biography, exploring his time in office as well as his public work before and after his elected terms. Compiled from extensive interviews with Mitchell as well as staffers and others who’ve known and worked with him, it is as much an exploration of American politics at a time when politics could actually be said to have “worked,” as it is a man whose vision and ideals have helped shape the world.

EIGHTY-EIGHT YEARS ON A MAINE FARM
By Will Penney and Minnie Penney
Chronicling nearly nine decades of life and work on a Maine farm, this memoir by Will and Minnie Penney presents a wonderful look back at rural life before and during the Depression, in the heady post-war years, and late, as family farms began to give way to larger industrial farms. The Penney’s adapted to change by adjusting the way they farmed, focusing on fewer crops, adding dairy cows to their stock, even harvesting trees from the woodlot and cutting them into lumber with the farm’s lumber mill. Through it all the Penney’s toughed it out and thrived on their slice of Maine heaven.

Hidden Places seeks to capture a diverse state at the granular level one representation at a time. It explores the identity of Maine through its writers and the people and places they wrote of. It seeks to provoke readers into seeing the work of these writers to provoke new awareness. These Maine writers construe place as both a territory on the ground and a country of the imagination. They help insiders see more clearly what might seem quaint or odd about the state. Like a well-drawn atlas, Hidden Places seeks to capture a diverse state at the granular level one representation at a time. It explores the identity of Maine through its writers and the people and places they wrote of.

Two Centuries of Maine Shipbuilding

By Nathan Lipfert

From the moment colonists at Popham launched the first ship constructed in the New World in 1608, Maine has been a shipbuilding powerhouse. Celebrating the bicentennial of Maine, historian Nathan Lipfert, in cooperation with the Maine Maritime Museum explores the rich history of Maine shipbuilding. Though concentrating primarily on shipbuilding activity in the two centuries since statehood, the book begins with pre-1820 activity, including native canoe-making (the oldest known birchbark canoe is in a Maine museum) and colonial-period shipbuilding. Covering the entire coast, this rich visual history focuses on the industry and the vessels produced, highlighting Maine’s national and international importance in shipbuilding over the past two centuries, and its continuing relevance to national security, the fisheries, yachting and harbor craft.

Maine’s Hail to the Chief

A History of Presidential Visits to the State

By Mac Smith

A visit from the President of the United States always brings with it excitement. In Maine, focusing on a dozen or so of the most interesting and weaving in tales of pirates, lost treasure, violent storms, and other disasters. Maine’s role in shipbuilding is legendary, and the history of vessels meeting their demise here is equally compelling.

Bowdoin

The schooner was designed and built in 1921 in Maine under the direction of naval officer and explorer Donald MacMillan. She is the only American schooner built specifically for Arctic exploration, and has sailed above the Arctic circle 29 times. Though named for Bowdoin College, the Bowdoin is owned by the Maine Maritime Academy, where it is used in the sail training program. The Bowdoin is the official sailing vessel of the state of Maine and is a registered national landmark.

Penobscot Runner

The Glory and Tragedy of Penobscot Runner Andrew Sockalexis

By Ed Rice

Following an extraordinary debut—17th place in 1911 Boston Marathon—Penobscot Indian Andrew Sockalexis returned to run a spectacular Boston Marathon on muddy, rainy course on April 19, 1912. Only 20 years old, running just his third marathon ever, he came in second and narrowly missed breaking the record time for that course. That same year he became the first Native American to compete in the Olympics, returning to his home of Indian Island, Maine, a champion.

CHICKENS, GIN, AND A MAINE FRIENDSHIP
The Correspondence of E. B. White and Edmund Ware Smith
By E. B. White and Edmund Ware Smith, Introduction by Martha White

During the 1950s and 60s, writers E.B. White and Edmund Ware Smith carried on a long correspondence by letter, despite living only a few miles apart on the coast of Maine. Often the letters were written from one or the other while they were traveling, but missing their homes and friends. The letters represent a witty and charming correspondence between two literary giants, their stories of Maine, the beauty of our region, and the trials and tribulations of living here.

Introduced by White’s granddaughter, Martha White, the letters show their first formal communications, their chummy middle years, right up to the death of Edmund Ware Smith. Throughout, there is a strong sense of place and community.

THE DETECTIVE IN THE DOORYARD
Reflections of a Maine Cop
By Timothy A. Cotton

Tim Cotton has been a police officer for more than thirty years. The writer in him has always been drawn to the stories of the people he has met along the way. Dealing with the standard issue ne’er-do-wells as a patrol officer, homicide detective, polygraph examiner, and later as the lieutenant in charge of the criminal investigation division certainly provides an interesting backdrop—but more often he writes about the regular folks he encounters, people who need his help, or those who just want to share a joke or even a sad story.

The Detective in the Dooryard is composed of stories about the people, places, and things of Maine. There are sad stories, big events, and even the very mundane, all told from the perspective of a seasoned police office and in the wry voice of a lifelong Mainer. Many of the stories will leave you chuckling, some will invariably bring tears to your eyes, but all will leave you with a profound sense of hope and positivity.

Beginning in 1847, Henry David Thoreau made three trips to the mostly unexplored Maine woods. Along the way he recorded his observations on the wildlife (flora and fauna), the weather, terrain, and on the nature of the people he met along the way, including loggers, rivermen, and his Abnaki guides. In Thoreau’s Maine Woods, photographer Dan Tobyne captures the essence of the Maine Thoreau discovered and described in his book. The combination of short excerpts with stunning imagery carries Thoreau’s work to a higher level, presenting it in both glowing words and pictures.

**ROSEBUD AND RED FLANNEL**
By Ethel Pochocki, By (artist) Mary Beth Owens

Red Flannel is a pair of woolen long johns, and Rosebud is a lacy, delicate nightgown. On wash days they hang side by side on the clothesline. Red Flannel is in love with Rosebud, but he’s too clumsy and shy to speak to her. For her part, Rosebud feels it beneath her dignity to converse with such a coarse fellow.

One day, when a sudden snowstorm threatens to freeze them on the line, Rosebud and Red Flannel take off on a harrowing adventure. Will they survive howling wind and bitter wind only to be eaten by cows?

In this Lupine Award-winning book, Ethel Pochocki has created a hero and heroine of timeless appeal, and Mary Beth Owens’s energetic watercolor illustrations infuse them with radiance. What Rosebud and Red Flannel find within themselves—and in each other—will warm every heart.

Puffins are funny. With their round little bodies and stubby wings, combined with a brightly colored beak, they are one of the most appealing birds. Just looking at a puffin can make you happy.

This entertaining and informative book tells you everything you really want to know about puffins, answering the kinds of questions kids always ask, such as:

Do puffins have teeth?

Do they always have such colorful beaks?

Are they related to penguins?

HENRY KNOX’S NOBLE TRAIN
The Story of a Boston Bookseller’s Heroic Expedition That Saved the American Revolution
By William Hazelgrove

The inspiring story of a little-known hero’s pivotal role in the American Revolutionary War. During the brutal winter of 1775-1776, an untested Boston bookseller named Henry Knox commandeered an oxen train hauling sixty tons of cannons and other artillery from Fort Ticonderoga near the Canadian border. He and his men journeyed some three hundred miles south and east over frozen, often-treacherous terrain to supply George Washington for his attack of British troops occupying Boston. The result was the British surrender of Boston and the first major victory for the Colonial Army. This is one of the great stories of the American Revolution, still little known by comparison with the more famous battles of Concord, Lexington, and Bunker Hill. Told with a novelist’s feel for narrative, character, and vivid description, Noble Train brings to life the events and people at a time when the ragtag American rebels were in a desperate situation. Washington’s army was withering away from desertion and expiring enlistments. Typhoid fever, typhus, and dysentery were taking a terrible toll. There was little hope of dislodging British General Howe and his 20,000 British troops in Boston—until Henry Knox arrived with his supply convoy of heavy armaments. Firing down on the city from the surrounding Dorchester Heights, these weapons created a decisive turning point. An act of near desperation fueled by courage, daring, and sheer tenacity led to a tremendous victory for the cause of independence. This exciting tale of daunting odds and undaunted determination highlights a pivotal episode that changed history.

THE VERMONT GARDENER’S COMPANION
An Insider’s Guide to Gardening in the Green Mountain State
Second Edition
By Henry Homeyer
The Vermont Gardener’s Companion tells how to get the most out of Vermont’s short gardening season and details how readers can use organic methods to improve soil, deal with diseases and pests, and get better results with their plants in a state where “winter temperatures plunge far below zero and rocks left by the glaciers pop out of the ground each spring like bread from hyperactive toasters.” With good humor and a natural teacher’s gift for explanations, Henry Homeyer makes gardening fun and readily accessible to all.

NIGHT BOAT TO NEW YORK
Steamboats on the Connecticut, 1824-1931
By Erik Hesselberg

Night Boat to New York: Steamboats on the Connecticut, 1824-1931, is a portrait of the vanished steamboat days—when a procession of stately sidewheelers plied between Hartford and New York City, docking at Peck's Slip on the East River in the shadow of the Brooklyn Bridge. At one time, Hartford could boast two thousand steamboat arrivals and departures in a year. Altogether, some thirty-five large steamboats were in service on the Connecticut River in these years, largely on the Hartford to New York City route. These Long Island Sound steamers, unlike the tubby, wedding cake dowagers of Western waters, were long, sleek, with sharp prows cutting a neat wake as they cruised along. Departing each afternoon from State Street or Talcott Street wharf in Hartford, the “night boats” reached New York at daybreak, inaugurating a pattern of city commuting that continues to this day. Steamboating not only brought people and goods—Colt’s firearms and Essex’s pianos—down river to New York for export to world markets, but also helped America’s inland “Spa Culture” transplant itself to the seashore, making steamboating not just convenient transportation but also a social phenomenon noted by such writers as Charles Dickens and Mark Twain. No wonder crowds wept in the fall of 1931, when the last steamboats, made obsolete by the automobile, churned away from the dock and headed downstream—never to return.

THE LIVES THEY SAVED
The Untold Story of Medics, Mariners and the Incredible Boatlift that Evacuated 300,000 People on 9/11
By L. Douglas Keeney

The Lives They Saved is the story in artifacts and oral histories of the 300,000 New Yorkers who were evacuated from Manhattan on 9/11 by boat. It is a story that has not yet been written about or told. It includes hundreds of oral histories and many photographs of this high drama, set against the terrifying backdrop of the day when the Earth stood still, every airport in the U.S. was closed down, and Manhattan was seized by gridlock. For perspective, the boatlift that saved Britain’s expeditionary force from the beaches of Dunkirk removed approximately the same number of people: 300,000.

PATRIOTS AND SPIES IN REVOLUTIONARY NEW YORK
By A.J. Schenkman

Spies! Loyalists! Tories! Conspiracy! Strange messages? Codes in invisible ink? The American Revolution was first and foremost a civil war that tore at the very fabric of families as well as society. Patriots were determined to separate from England, while Loyalists were just as determined to defeat what they saw as a rebellion. Many do not know that during several critical periods the war was almost fatally undermined by English sympathizers or in some cases opportunistic Patriots. Patriots and Spies in Revolutionary New York is a compilation of twelve stories regarding important moments in New York State’s history during the American Revolution.

Guglielmi, desperate to avoid further poisonous publicity, fled to California, changed his name to Rudolph Valentino, and the rest is Hollywood history.
